Agenda

What is the OCRE Framework?

Who is Rackspace Technology?

What is the Rackspace Technology value of OCRE?

What can you buy through OCRE via Rackspace?

How do you get started?

Onboarding process

Q&A

What is OCRE?

- Contracted across 39 countries in Europe and Middle East supported by NREN in each country

- Cloud providers awarded contracts on a per country basis

    - For 38 countries, Rackspace has been selected as being the partner for AWS

- Contracts under the OCRE framework provide members of the local NREN to Cloud infrastructure, PS and MS at pre-approved pricing

What does Rackspace Technology bring to the framework?

The combined power of Rackspace Technology and AWS for Education & Research

Commercial benefit

Free 24/7 support

Free access to CloudHealth

Access to free AWS education

- All GRNET Partners joining the framework get a 6% discount on their complete AWS bill. (AWS list pricing) Giving big and small institutes the opportunity to be part of a large procurement

- Customers better off in the Framework than solo

- Still Access to all great funding programs in AWS such as PoC / PoV, MAP etc
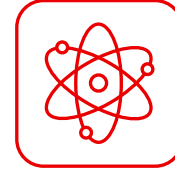

- By joining the framework your organisation will instantly receive 24/7 guidance level support from Rackspace.

- Support for your own institution

- On top of this Rackspace will provide quarterly Well architected reviews against AWS best practises

- By joining the framework, your organisation will receive free complimentary access to industry leading tool CloudHealth by VMware

- This tool will help your organisation optimize your cloud spend by providing you with detailed insights, setting budgets, rightsizing recommendations, alerts, tagging and many more

- When joining the framework, a Rackspace FinOps expert will work with you to set up this tool for your organisation and set you up for success

- AWS will provide all OCRE consortium members with free access to 500+ free of charge online courses such as Cloud practitioner fundamentals

rackspace technology.

How do you get started?

- If you don't already have an AWS account?

- With own resources/With support of GRNET?

- Contact GRNET to get in touch with Rackspace and start the process
