Skills4EOSC Competence Centers Network

- The Skills4EOSC Competence Centres Network is a coordinated network of Competence Centres across Europe that provides key competencies to enable the practice of Open Science and EOSC.
- These Competence Centres (CCs) serve as a single point of reference in their respective countries, regions or thematic domains for finding training programmes and materials, best practices and tools for managing, reusing, sharing and analysing FAIR data and other digital research objects.

Skills4EOSC Competence Centers Network

- CCs with a Training of Trainers programme target different profiles, ranging from policy makers to data stewards, researchers to professionals, and legal and ethical advisors, on a variety of topics and domains such as Ethical, Legal, and Social Issues (ELSI) aspects, RDM workflows in different disciplines, and more.

The screenshot displays the Skills4EOSC website's 'COMPETENCE CENTRES' page. At the top, there are logos for 'Supporting eosc', 'Co-funded by the European Union', and 'UK Research and Innovation'. The navigation menu includes 'ABOUT', 'KERS', 'NEWS', 'RESOURCES', 'NETWORK', and 'PARTICIPATE'. Below the navigation, the page title 'COMPETENCE CENTRES' is prominently displayed. The main content area features six cards, each representing a different competence center with a unique header image, title, and a 'READ MORE' link:

- ITALIAN COMPUTING AND DATA INFRASTRUCTURE (ICDI)** - READ MORE
- OPEN SCIENCE CLOUD COMPETENCE CENTER IN GREECE** - READ MORE
- THE CSC RESEARCH DATA MANAGEMENT COMPETENCE CENTER** - READ MORE
- SWEDISH NATIONAL DATA SERVICE (SND)** - READ MORE
- OPEN SCIENCE AND RESEARCH DATA COMPETENCE CENTRE OSC@MK** - READ MORE
- RECHERCHE DATA GOUV** - READ MORE

Open Science Cloud Competence Center in Greece

- GRNET is in close collaboration with the academic and research community, providing services, infrastructures, user support and skills.
- Similar to HPC/AI CC which functions within GRNET, as well as the National Digital Skills Academy, the Open Science Cloud CC aims to engage the Greek OS community to be closely involved in the CC activities, according to the needs for specific competencies and their availability.

Greek Stakeholders

- Researchers & Academia
- Policy makers
- Infrastructure & services managers
- SMEs
- CSO (civil society organizations – non gov / non profit orgs)
- Others

Services offered in the EOSC-GR

- Advisory: Consulting/ strategic guidance
- Data repository
- Training & courses on OS skills
- SW/Tools
- Standards & Best Practices
- Alignment with EOSC-A
- Catalogues of tools
- Catalogues of policies
- Generic Services
- Thematic Services
- Workshops & Seminars
- Networking & Collaboration
- Competencies that are not currently on board are complemented by the pool of experts within the HOSI members and other R&E institutions.

Competence Center Interaction

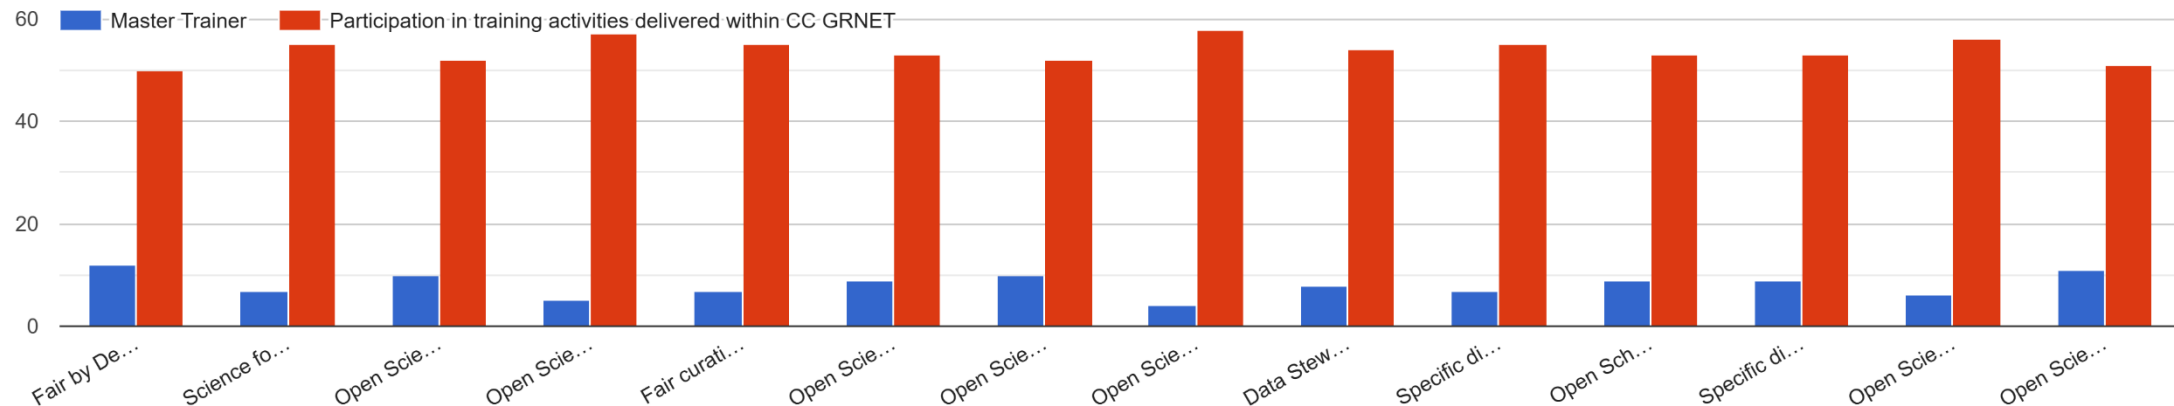

- By appointed contact persons / Collaboration with Universities & SMEs
- Coordination meetings
- Mutual interaction / communication
- Organization of joint events
- Share of knowledge & expertise
- Sharing tools, platforms, resources & services

Surveying the greek community

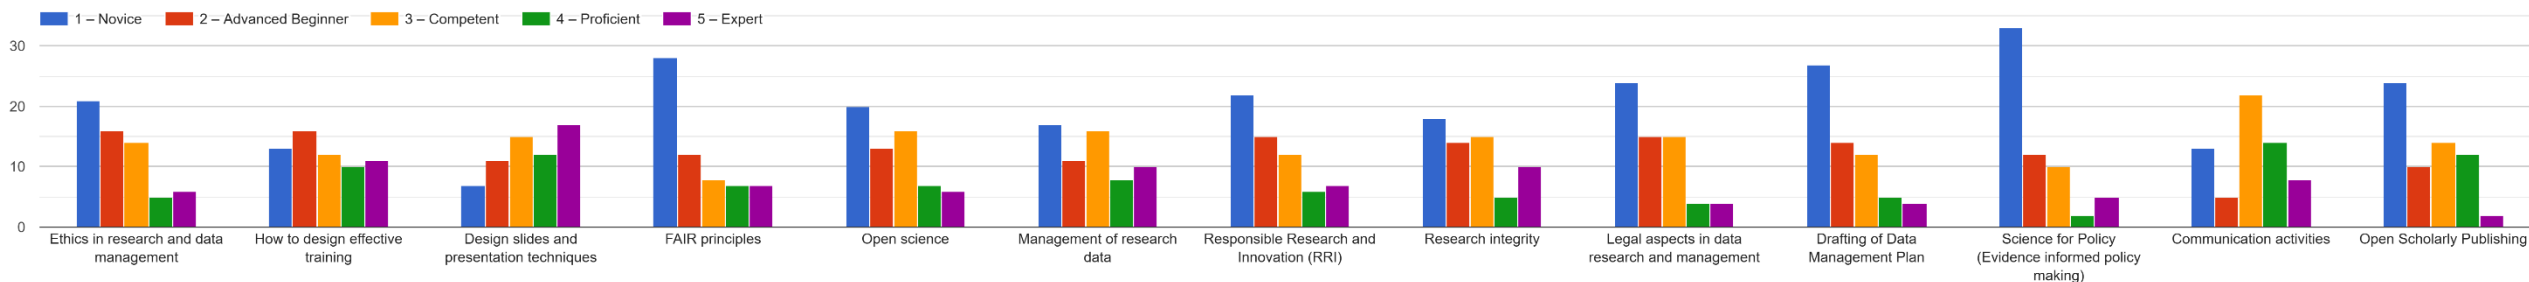

<https://forms.gle/iH6NuAEEsSP1iysN8>

- Interest in Trainings
 - 19% Master Trainer
 - 81% Participation in training

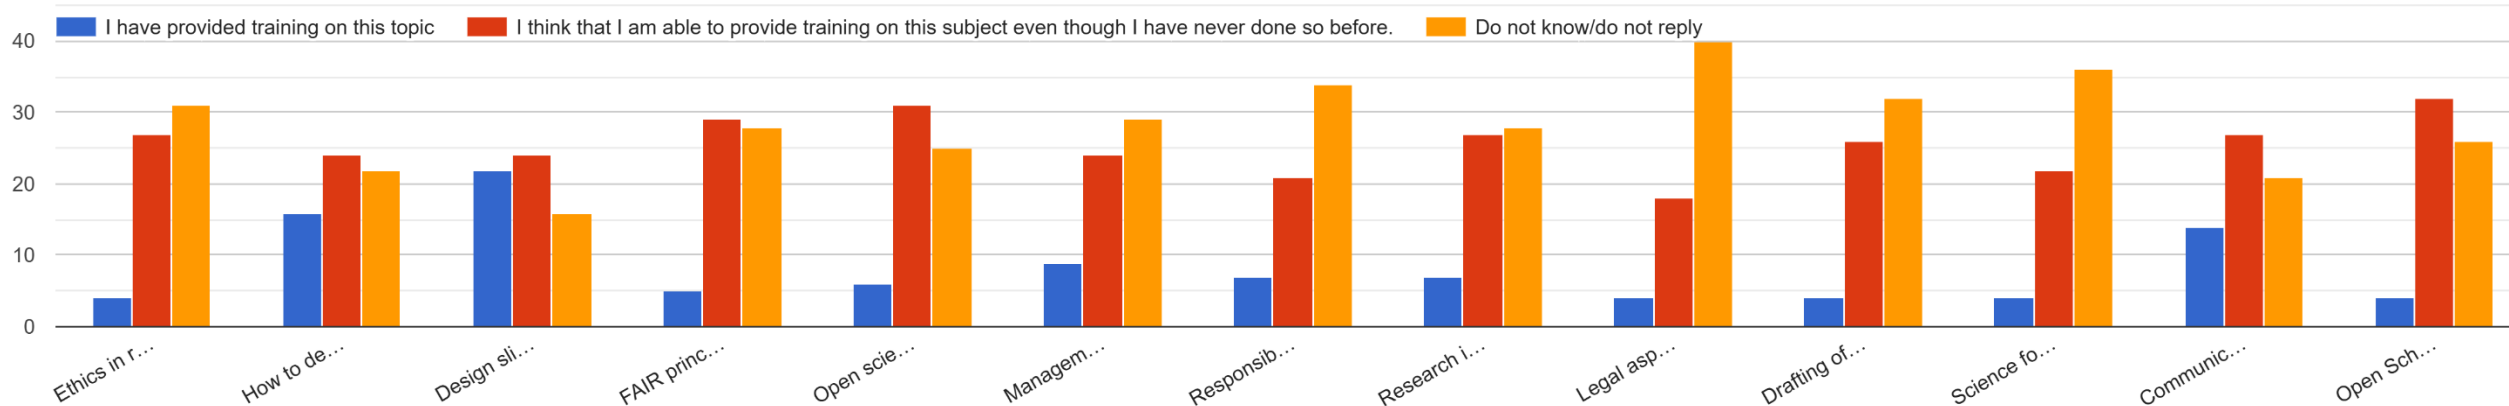

Surveying the greek community

- Skills mapping (level of competence in specific areas)
 - 34% Novice
 - 26% Advanced Beginner
 - 23% Competent
 - 18% Proficient/Expert

Surveying the greek community

- Experience as a trainer
 - 6% I have provided training
 - 44% I can provide training
 - 50% I do not know

Conclusions

- The Competence Center needs all interested parties participation
- Trainings will play an important role
- Interaction will be the success

- If you haven't already, you can fill out the survey:
