

HPC Training Series - Course 6 "Gradient-based and gradient-free optimization, with applications to CFD and beyond"

Contribution ID: 2

Type: **not specified**

An introduction to adjoint methods and the shape and topology optimization workflow of OpenFOAM for CFD-based optimization

Friday, 4 October 2024 10:15 (45 minutes)

Presenter: Dr PAPOUTSIS-KIACHAGIAS , Evangelos (NTUA)
