

Demystifying EBSI: Seminar & Training - All you need to know about EBSI

Contribution ID: 12

Type: **not specified**

Workshop

Friday, 11 April 2025 12:00 (1 hour)

Speakers:

- Thanos Kapsalis, Node Operation Technical Lead, CERTH-ITI
- Panagiotis Savvidis, EBSI Systems Analyst & CERTH SSI Wallet Developer, CERTH-ITI
- Ioannis Grypiotis, CERTH SSI Wallet Lead Developer, CERTH-ITI

CERTH will showcase its expertise in implementing EBSI node infrastructure, detailing its onboarding journey, node setup, and operational insights. This session will highlight how CERTH's robust infrastructure supports both public and private sector applications, reinforcing its commitment to the European initiative. It will also demonstrate its interoperable SSI wallet solution, showcasing its role in enhancing digital services and seamless integration within the EBSI ecosystem.

Key topics:

- Technical implementation of EBSI onboarding
- Infrastructure specifications
- Pre-production node setup and operational insights
- Practical applications powering digital services
- Wallet capabilities and interoperability features
