

PHAROS Training Series - Course 7 "Quantitative Pathologic Assessment
using AI-based Whole-Slide Image Analysis"

Contribution ID: 16

Type: **not specified**

Stage 2: Image Analysis – Segmentation & Quantification

Friday, 20 March 2026 12:25 (40 minutes)

- Tissue Segmentation & Cell Classification (Deep Learning architectures for H&E).
- Multiplex IHC Analysis (Channel registration, spectral unmixing, phenotype mapping).
- Histopathology-based Feature Extraction.
