

International conference “e-Infrastructures for excellent science in Southeast Europe and Eastern Mediterranean”

Contribution ID: 9

Type: **not specified**

**CNCADD: Semiempirical Atom-centered Density
Matrix Propagation Approach to
Temperature-dependent Vibrational Spectroscopy of
Irinotecan**

Wednesday, 16 May 2018 10:42 (18 minutes)

Presenter: PEJOV, Ljupco (Institute of Chemistry, Faculty of Natural Sciences and Mathematics, Skopje)
